

Punctuation Scavenger Hunt

Skill: Punctuation

Students search through books to find periods, question marks, and exclamation points.

Materials: Several short children's books (one per student) and sticky notes (six per student)

Procedure:

1. Each student selects a book to use.
2. Students look through books, searching for periods, question marks, or exclamation points.
3. Students place a sticky note on the punctuation mark when they find it in the book.

Note: Teachers may choose to work on one punctuation mark at the time before having students search for all three.
