

# Brain Dump

## Morphology

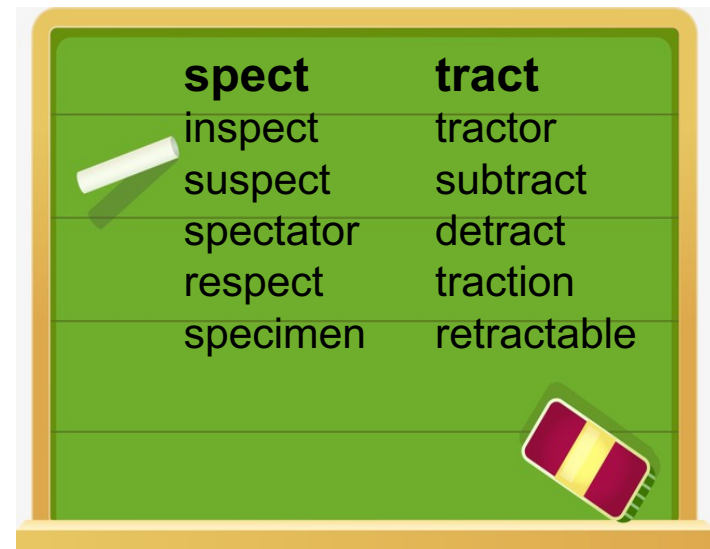

**Brain Dump** is a 2-3 minute timed game that demonstrates the knowledge of a focus affix or root.

### Procedure:

1. Teacher will write two different affixes or roots on the board.
2. At the signal, one member from each team will hurry to the board and write a word that contains that affix or root.
3. Student will rush back and tag the next team member to write a word.
4. When the time is up, the team with the most correct related words wins.

### Preparation:

- Teacher will divide class into two teams.
- A routine and signal for rotating

### Option:

- Utilize as an exit ticket or warm up at the beginning of class.
