

Fluency Practice: Sight Words Flashcards

Purpose: To improve accuracy and rate

Procedure:

1. Tell student that they will be reading cards with sight words that they have studied..
2. Go through the cards with the student for review.
3. When cards are complete, stack them up and tell student you will set timer for one minute. The student will read as many words as possible while the teacher takes note of the words read correctly.
4. After one minute, tell student how many words were read correctly.
5. Set timer again and repeat process to see if the child can score more words correct.
6. Graph each reading on a recording sheet.

Materials: index cards with sight words, timer, recording sheet

Variations: You may choose Fry's word list, Dolch word list, or any sight word list that has been worked on in class
