

Regularly Spelled High Frequency Words Master List

Master List contains:

- A table of decodable words organized in columns by Beginning Phonics Continuum skills and Advanced Phonics Continuum skills.

Beginning HFW List contains:

- A table of decodable words organized in columns by Beginning Phonics Continuum skills only.

Advanced HFW List contains:

- A table of decodable words organized in columns by Advanced Phonics Continuum skills only.

Advisories for Teachers:

- Teach **phonetically** (decodable) spelled high frequency words based on their patterns (e.g., at, can, jump, did, get) within the phonics scope and sequence.
- Teach in clusters according to patterns.
- Once spelling patterns have been explicitly and systematically taught, students can practice building and sorting words using common patterns.
 - at word family - pat cat sat mat fat
 - ip word family - tip lip sip flip trip
- Words that are familiarly decoded should be recognized automatically...or “by sight.”
- Rapid naming of words is an important part of reading fluency (Reutzel & Cooter, 2011).
