

## Phonemes Rock

### Skill: Segment Phonemes

#### Materials:

- Copy of large boulder for each student.
  - Small bag of pebbles
  - Word list or pictures cards for segmenting with 2-, 3-, 4-, and 5-phoneme words
1. Distribute one copy of the large boulder to each student.
  2. Provide students with a small bag of pebbles corresponding to the number of phonemes you plan to have the students segment.
  3. Call out a word or show a picture card and have students segment the phonemes in the word by placing a small pebble on the boulder for each sound they hear.
  4. Students touch each pebble while saying the sound.
  5. Students then run their finger under all of the pebbles and say the whole word.
